**EUROPEAN COMMUNITIES AND THEIR MEMBER STATES**

**Schedule of Specific Commitments**

(This is authentic in English only)

---

### INTRODUCTORY NOTE

1. The specific commitments in this schedule apply only to the territories in which the Treaties establishing the European Communities are applied and under the conditions laid down in these Treaties. These commitments apply only to the relations between the Communities and their Member States on the one hand, and non-Community countries on the other. They do not affect the rights and obligations of Member States arising from Community law.
2. The following abbreviations are used to indicate the Member States:

B	Belgium	I	Italy
D	Germany	IRL	Ireland
DK	Denmark	L	Luxembourg
E	Spain	NL	The Netherlands
F	France	P	Portugal
GR	Greece	UK	United Kingdom
3. The rights and obligations arising from the GATS, including the schedule of commitments, shall have no self-executing effect and thus confer no rights directly to individual natural persons or juridical persons.
4. A glossary of terms used by individual Member States is attached to this schedule.

Modes of supply:		1) Cross-border supply	2) Consumption abroad	3) Commercial presence	4) Presence of natural persons

<b>I. HORIZONTAL COMMITMENTS</b>					
ALL SECTORS INCLUDED IN THIS SCHEDULE	3) In all EC Member States services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators.*	3) a) Treatment accorded to subsidiaries (of third-country companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Communities is not extended to branches or agencies established in a Member State by a third-country company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a third-country company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.			

\* Explanatory Note: Public utilities exist in sectors such as related scientific and technical consulting services, R&D services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical.

	<p><b><u>Real estate purchases:</u></b></p> <p>DK: Limitations on real estate purchase by non-resident physical and legal entities. Limitations on agricultural estate purchased by foreign physical and legal entities.</p> <p>GR: According to Law No. 1892/89 permission from the Minister of Defense is needed for a citizen to acquire land in areas near borders. According to administrative practices permission is easily granted for direct investment.</p>	<p>b) Treatment less favourable may be accorded to subsidiaries (of third-country companies) formed in accordance with the law of a Member State which have only their registered office in the territory of the Communities, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.</p> <p>D: Purchase of real estate by foreigners in the Länder Berlin, Schleswig-Holstein and Saarland may be subject to authorization. After 1994 it is very likely that only Land Berlin will continue to require such authorization.</p> <p>IRL: Prior written consent of the Land Commission is necessary for the acquisition of any interest in Irish land by domestic or foreign companies or foreign nationals. Where such land is for industrial use (other than agricultural industry), this requirement is waived subject to a certificate to this effect from the Minister for Enterprise and Employment. This law does not apply to land within the boundaries of cities and towns.</p> <p>I: Unbound for purchase of real estate.</p>

\* An assessment of the investment is made in light of the effect on the economy of the country. 7.	<b>FINANCIAL SERVICES SECTOR*</b>		
1.	The Communities and their Member States undertake commitments on Financial Services in accordance with the provisions of the "Understanding on Commitments in Financial Services" (the Understanding).		
2.	These commitments are subject to the limitations on market access and national treatment in the "all sectors" section of this schedule and to those relating to the subsectors listed below.		
3.	The market access commitments in respect of modes 1) and 2) apply only to the transactions indicated in paragraphs 3 and 4 of the market access section of the Understanding respectively.		
4.	Notwithstanding note 1. above, the market access and national treatment commitments in respect of mode 4) on financial services are those in the "all sectors" section of this schedule.		
5.	The admission to the market of new financial services or products may be subject to the existence of, and consistency with, a regulatory framework aimed at achieving the objectives indicated in Article 2.1 of the Financial Services Annex.		
6.	As a general rule and in a non-discriminatory manner, financial institutions incorporated in a Member State of the Community must adopt a specific legal form.		

\* Unlike foreign subsidiaries, branches established directly in a Member State by a non-Community financial institution are not, with certain limited exceptions, subject to prudential regulations harmonized at Community level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the Communities. Therefore, such branches receive an authorization to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalization and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalization, and the localization in the Member State concerned of the assets representing the technical reserves and at least one-third of the solvency margin. Member States may apply the restrictions indicated in this schedule only with regard to the direct establishment from a third country of a commercial presence or to the provision of cross-border services from a third country; consequently, a Member State may not apply these restrictions, including those concerning establishment, to third country subsidiaries established in other Member States of the Communities, unless these restrictions can also be applied to companies or nationals of other Member States in conformity with Community law.
